Ghost, a sofa created with a light body and essential volumes. Made from a thin, minimal structure padded with polyurethane foam, Ghost contains soft loose cushions in mixed down. The main feature of the Ghost sofas is the removable cover, an oversize housse whose shape is underlined by the visible stitching, allowing it to be put on and taken off in a flash. A textile product that easily changes appearance, allowing you to go from a formal to an informal look with ease and speed. Solid beech frame and raw plywood panels, seat with elastic belts or raw plywood panels supporting the seat itself. Upholstery with differential density polyurethane foams, covered by resinated material. Black polyethylene feet.
